- Easy health

Dial "911" on your cell phone. You will reach a voice menu. Dial "2" for an ambulance. When the ambulance arrives, the paramedic will restore your health for approximately \$1,000. After he refills your health, kill him to get your money back. -From: Mike

- Easy money

Go to an ATM, then cause a traffic jam to the area. Wait for someone to take money from the ATM, then kill him or her. Make sure to block any nearby roads so the ambulance cannot get to the murdered victim. Take the money they dropped on the ground. Then, run a short distance away, and go back. The money should have respawned on the ground. You can repeat this as many times as desired. You can also kill more people taking their money from the ATM to increase the amount of money that respawns. -From: Khair0161

Find an area with a lot of people. Then, position yourself a decent distance away, and enable the "Spawn Jetmax" code. The boat should spawn above the people, fall on them, and kill them without raising your wanted level. You can then pick up the money dropped by the people killed. Repeat this process as many times as desired. -From: Vernon Reis

After completing all of Stevie's 30 vehicle thefts, go to the garage in south Bohan. Then, enter one of the "Spawn" vehicle codes, and take the vehicle to the garage to get the indicated amount of money as long as the vehicle is in perfect condition. Repeat this as many times as desired. -From: Elan Gedalia

Cognoscenti: \$9,000  
 Comet: \$6,000  
 NRG-900: \$2,500  
 Sanchez: \$1,200  
 SuperGT: \$11,000  
 Turismo: \$11,000

After completing all of Stevie's 30 vehicle thefts, take a taxi to the Perseus on Pyrite Street and Bismarck Avenue. Walk to the Grotti car dealership with a baseball bat. Use your baseball bat to break open the window on the east side of the building near the tree that has a Turismo parked behind it. Try not to damage this car. Take the Turismo, and drive it to Stevie's car shop. Taking the Charge Island bridge to Bohan is the best route. Stevie will give you approximately \$10,000 for the car, depending on its condition. You can then take a taxi back to the dealership and do it again.

Steal an armored truck, and blow it up to get approximately \$1,100 from the piles of money surrounding the wreckage.

There is a glitch in Aldeney at the intersection of Tudor and Port Tudor, close to the prison where you visit Gerald. You can find a total of nine armored trucks arriving back-to-back. Highjack one, then block the road. Another one will appear. Blow them up one-by-one. There is a total of approximately \$1,100 on each truck, which is especially useful when just starting out or if you need money.

Steal a Securicar, and blow it up to get approximately \$1,000 from the piles surrounding the wreckage. To do this without getting a wanted level, you must drive it and get it damaged until it catches fire and explodes. Do not attack it with a weapon or you will get a two star wanted level. If the smoking Securicar stops running and still is not on fire, use your cell phone to call anyone, then hang up while it is dialing. The Securicar will start again, allowing you to do the last amount of damage to get it to catch on fire and explode.

Go to a strip club, and kill the strippers. Each one drops about five or six wads of cash, but all the guards will attack you.

- Easily lower wanted level

If you want to get rid of your wanted level, simply start a mission. Your wanted level will instantly go away. If there were any police cars chasing you, the police will be gone but the cars will still be there. -From: D2

To lose your wanted level, simply enter a safehouse, and save your progress. When you wake up, your wanted level will be gone.

- Repairing engine

If your vehicle breaks down and will not start, call any number saved in your cell phone or "911", and your engine should start again.

- Quick repair

While in a vehicle, if you drive over a health pack, your health will be restored and any damage to your car will fully repaired. This is very useful while playing online in a vehicle that has caught fire.

- Parking more vehicles

Outside your first hideout is a small parking area to park your vehicles and save them. Instead of parking your vehicles fully within the lines, you can park your vehicles partially within the lines to allow for more vehicles to be parked and saved. -From: Zane

At the start of the game it would appear that you can only save two vehicles parked in the "Residents Parking Only" parking spaces in front of your safe house. However, if you can find other "Residents Parking Only" places around the city, you can also save vehicles there even if you do not have a safe house at those locations yet.

If you attempt to use the trick to keep more than two vehicles in any one parking space, it will only work until you leave the current game session. If you shut off your system, play a multiplayer game, or load your most recent save, all but two of your vehicles will have disappeared. It seems to either save the two vehicles closest to the center of the parking space or two at random.

- Fast travel

To avoid wasting time driving all the way across the city, call a taxi. They will take you to your destination for your mission, stores, safe houses, or even a waypoint marker. You can skip through the taxi ride, allowing you to travel across the entire city in about ten seconds. This can also be done during missions.

- Easy Assassin's missions

Most of the Assassin's missions can be completed easier by using a helicopter. Land on a high position overlooking your target, and use the sniper rifle to kill them.

- Easy headshots

It is sometimes difficult to get headshots, which do count. With some practice, doing the following is an easy way to get headshots. Press [Auto-Aim], then use the Right Analog-stick to move the auto-aim target around your victim's body. Barely move the Right Analog-stick as you are shooting. This puts bullets in the chest and head, and results in an easy instant kill.

- Easy drive-by shootings

When you can, call Roman, and have him send a taxi to you. Let the taxi drive you around. You will be able to shoot at people without the driver stopping. He will also run past the cops and blockades as much as possible. When you get stuck, choose to end your ride at a destination without a wanted level.

- Easy emergency vehicles

Dial "911" on your cell phone. You will reach a voice menu that allows you to call the police by dialing "1", an ambulance by dialing "2", or a fire truck by dialing "3". Select the vehicle of your choice, and wait for them to arrive. They will stop and look around for the emergency, allowing you to easily steal their vehicle.

- Getting away from police

When running away from the cops, you will have a circular area in which they look for you. However, if you get out and another cop sees you, it changes. To use this to your advantage, barely get out of that circle, which you will see on your radar. Then, just sit there for about five seconds instead of flooring past it.

If you are at a four star wanted level or less, find a place with grass or sand. The cops will follow you in, but they usually cannot get back out. You can then just drive away.

- No wanted level when arrested

When you are being arrested by a cop, instead of pressing A immediately, click Right Analog-stick to crouch. You will still be able to walk away, but you will not get a two star wanted level. -From: reaver456

- Calling for backup

Steal a police car, and any time you are in trouble, press LB while your car is stationary. Select "Call For Backup", and within minutes you will have two cruisers full of police who will fight on your side unless you shoot someone. **Note:** They will turn on you when they realize you are not a cop.

- Killing blind firing enemies

To take out an enemy that is blind firing, aim for his shooting arm or hand while it is exposed. Once you wound him, he will usually stumble out of cover, giving you an easier kill.

- Killing pedestrians without fighting

You can kill most pedestrians by repeatedly running into them against walls. This is a good way to get easy money without alerting the police.

- Regaining health during missions

You can leave the mission area and go to a Cluckin' Bell, hotdog stand, etc. and eat food to replenish your health if you are low and cannot find a health pack. This is especially useful on missions where there are no health packs in sight. **Note:** You can also take a taxi to those locations during missions.

- Avoiding toll booths

Drive through any toll booth with any emergency vehicle with the sirens on. The booth attendant will open the gate, and you will save \$5.

Drive a normal car up to the toll booth. As you get close, slow down and jump out while making sure the car passes through the booth. Then, walk past the booth, and get in your car. -From: Mike

While in a vehicle or on a motorcycle, drive up to the toll booth. Stay on the far side of the booth. Niko will stick his arm out but not put money in the basket, and the gate will still open.

Drive a motorbike to the side of the pay toll wall. You will not pay a toll if you can drive through the small gap on the sides.

- Free taxi rides

Get in a taxi, but do not skip the ride after choosing your destination. When you are approximately two blocks away from your destination, break the window, and start shooting. The cab driver will get out and run away, allowing you not to have to pay for the ride. You can also kill the cab driver and take his money, so he is actually paying you for the taxi ride. -From: DemonUrameshi Naruto

- Free internet access

Some of your safehouses have a computer in them that will not charge the \$1 fee. The Algonquin safehouse has a laptop in it, and is somewhat far away from some of the internet cafes.

- Free health boost

Enter an ambulance to get a small health increase.

- Free shotgun shells

Enter a police cruiser to get five shotgun shells.

- Carbine rifle

Use a helicopter, boat, or simply swim to reach Happiness Island. Go inside the first door of the Statue Of Happiness. There will be a security guard with a carbine rifle. Kill him to get the Carbine rifle.

- Getting Desert Eagle early

To get the Desert Eagle before you can buy it, kill the gun salesman in Broker that has it equipped, and then take it from him. **Note:** Doing this will prevent you from making any future purchases at this location. This will also cause bodyguards with shotguns to chase after you.

- M-4 assault rifle

Go to the Easton area in Algonquin. At the Grand Easton Terminal, go up the stairs in front. Keep going around that floor until you see a small pond. Move past it until you see a turn going left. Go to the left to get in between a tall building and a smaller one. At the end of the passageway is a dead end. Turn and you will see a glowing orange garbage can. Behind it is an M-4 assault rifle.

- Getting pistol and shotgun early

The following is an easy way to start the game with full pistol and shotgun ammo. Unlock the ability to save by sleeping on the bed in Roman's home. Getting the knife is also helpful. Go outside Roman's home, and kill a few people. The police will appear. Kill a police officer. He will drop his gun. Take it, then immediately run into Roman's home, and sleep on the bed. You can choose to save the game if desired. When you wake up, your wanted level will be down, and you will still have the pistol. Go back outside, and kill more pedestrians. When the cops appear, run up the stairs. Turn around at the top of the stairs, and face the door going outside of Roman's home. The cops will come through that door, and you can simply pick them off with your new pistol. Watch your health, and do not worry about picking up the guns. If your health gets low, you can sleep on the bed. Wake up, and when you go outside there will be lots of weapons. The shotgun will take longer because not every cop uses it. However, if you enter the police cars that have been abandoned outside the apartments, you can easily get five shells for the shotgun for each car you enter.

- Getting Remington shotgun early

You can get the good shotgun early in the game by simply going to the strip club. On the way out, there is a manager's office that you can enter. There is a large Remington shotgun on the floor you can take.

- Claude outfit

Kill Playboy X and get his penthouse. Then, save the game, and restart the Xbox 360. When you reload your saved game, look through your outfits, and you should have Claude's outfit (the main character in *Grand Theft Auto 3*). Everything from the leather jacket, the green cargos, and the black shoes with the white stripe on the bottom should be there.

- Hidden shirt

There is a secret Happiness Island shirt laying at the highest point on the statue's base that can be reached by foot. It looks like a glowing red rectangle. Once it is picked up, Niko will automatically put it on. It is a navy blue sweatshirt. The front shows the statue and reads "Happiness is..." and is continued on the back with the word "...land".

- Niko in a bra

To wear a bra, go to the clothes store called Modo, and walk up to the cashier. It must be a female cashier for this trick to work. Knife the cashier, and stand over her body for one game hour. Travel back to Roman's apartment, and go to the wardrobe. You should now have an option to wear a bra. Wearing the bra will change NPC dialogue, and they will start saying things to you like "What the hell are you wearing man?!"

- Ski mask

The vehicle reward only goes down when you bump into things.

### *Banshee*

Reward: \$26,400

Location: Algonquin, Middle Park West. Parked west of a building that says Mammon Heights, facing north. On the other side of the street is the art gallery. The easiest way to find this is to go to the southwest corner of Middle Park, go one block west, and then turn right to the north. The orange

Banshee is on your right side.

### *Bobcat*

Reward: \$8,250

Location: Dukes, Francis International Airport. It is on top of the multistory car park, west of the terminal. Go up to the roof, and you will find it in the south area, parked on the middle part in front of a pay station.

### *Buccaneer*

Reward: \$5,940

Location: Bohan, Industrial. Look at the map of Bohan, in the southeast corner is a two lane highway going southwest and then just ends out on the water. Go under that highway, on the road that goes northwest to southeast. At the corner where that road turns east, just south of it, is the car.

### *Cavalcade*

Reward: \$23,100

Location: Alderney, Leftwood. The car is just north of the hospital. If you look at the map and see the northern Pay 'n' Spray, locate the road to the northwest that starts going west, makes a hairpin curve southwards, and then goes to the northwest. Where that road ends is a house with a small wall, and behind that small wall (visible from the street) is the car, parked facing west.

### *Cognoscenti*

Reward: \$29,700

Location: Alderney City. From the north Pay 'n' Spray, go west, and take the first south. At the third corner where the thin street meets the thicker street that goes south to west, stop here. Look east into the alley. It is parked on the south side of it in the middle.

### *Comet*

Reward: \$19,800

Location: Algonquin, Westminster. Look at the southern Pay 'n' Spray at the west coast of Algonquin. There is a set of three docks to the west and a bit south of here. The northern one of the three has a big parking lot (darker street, looks like an alley on the map) to the east. Go there. To the northwest is a big domed building where the car is located.

### *Contender*

Reward: \$8,250

Location: Dukes, Boabo. This is the same location you went for the "Bleed Out" story mission. The guy dropped his car here and ran up the stairs. If you do not remember where it is, look where the Algonquin Bridge hits the land. Follow the first road that goes under it in the west a bit north. Before it curves to the east, look to the west through the gate of a factory with two large buildings. The car is in between.

### *Coquette*

Reward: \$13,530

Location: Algonquin, Suffolk. Take the road north of the weapons shop, and go west. At the fifth intersection, go north, then look to the west to see a church. The Coquette is parked here on the west side of the road. This road is also directly two blocks south of the big sky scraper.

### *DF8-90*

Reward: \$5,940

Location: Broker, Hove Beach. Southeast of the broker safe house is a train station. You can see the symbol for it overlapping a building to the north on the map. On the ground level of the train station is a parking garage in the south-eastern corner, where the DF8-90 is parked.

### *Dilettante*

Reward: \$6,600

Location: Dukes, Willis. Take the road west of the northern car wash to the north. At the third road that goes west, turn left. The Dilettante is parked on the right side (north) here. If you look to the east, you should see the "Big Willis Mall" sign.

### *Dukes*

Reward: \$7,260

Location: Algonquin, East Holland. Go to the northern Modo clothes store. Across the street to the southeast, the Dukes is parked facing east just as the street goes downward. You can see the clothes store from where the car is parked.

### *Faggio*

Reward: \$2,310

Location: Algonquin, Chinatown. The Faggio is one block south and a bit to the west of the gun shop, on the north side of the street.

### *Freeway*

Reward: \$6,600

Location: Dukes, Willis. Go to the northeast car wash. The bike is just south of it parked on the street, on the eastern side, facing north.

### *Huntley Sport*

Reward: \$13,200

Location: Bohan, Northern Gardens. In northern Bohan, where the two lane high way from the east merges into one lane again, a small road goes south. At that corner to the southeast is a police station. The car is parked in a parking lot with a wall around it in the north of the station. It opens up to the west, which is also the direction the car faces. Be careful as there is a cop standing right next to it.

### *Infernus*

Reward: \$33,000

Location: Dukes, Downtown. Look for the circle in Outlook, with the big arch on it. Go north from

it, and you will see the Infernus parked on the east street side facing north, in front of a place that has a "Pizza Salad" sign on it.

### *Intruder*

Reward: \$8,250

Location: Broker, Rotterdam Hill. Take the road that is south of the weapons shop, and go west on it. Follow it generally to the northwest then west again. The road then makes a curve to the southeast. Before the curve is where the Intruder is parked. There is also a hot dog stand there. The car faces west.

### *Manana*

Reward: \$3,960

Location: Dukes, Heights. One block east of the Cluckin' Bell in Cerveza Heights, you will see an old burger shop that is no longer open. The Manana is parked on the south side of it facing west. The block it is on has an alley on the map that goes from east to south.

### *Moonbeam*

Reward: \$7,260

Location: Charge Island. The street on Charge Island in the northeast goes close to the water front. Just as it curves back to the southwest, there is a parking lot (darker grey area on the map). The Moonbeam is in the middle of the southern end, facing north.

### *NRG 900*

Reward: \$8,250

Location: Algonquin, Lancaster. From the northeast corner of Middle Park, go east one block, then turn south. The bike is parked on the east side of the street in the middle of this block, facing north.

### *PMP 600*

Reward: \$10,560

Location: Algonquin, The Exchange. Look at the map in southern Algonquin. In the block just north of the Perseus clothes store is a bank (occupying the south-eastern part of that block). Just north of that is an alley (same colored street as the surrounding streets though) in which the PMP 600 is parked.

### *Patriot*

Reward: \$16,500

Location: Algonquin, The Exchange. Go one block west from the southern Perseus clothes store and then one block south. On the southwest corner of the next block to the south, on its south side, facing west is a yellow Patriot.

### *Rancher*

Reward: \$8,250

Location: Alderney in the Port Tudor area. Look at the map, and locate the weapons shop. To the

east from there are two docks that have roads on them. To the west of those docks are two buildings with roads around them. The southern of the two has the northeast corner missing. The Rancher is in that corner.

### *Rebla*

Reward: \$11,550

Location: Algonquin, The Triangle. From the Cluckin' Bell, go south, and take the second road east. Stop at the next corner, and look to the southeast. There is a restaurant with a crab logo. The Rebla is parked outside it, on the east side of the road, facing north. Across the corner to the northeast is the Daily Globe building.

### *Sabre GT*

Reward: \$8,250

Location: Parked in a drive way facing north, in Dukes. Drive on the road that is to the east of the large circle in Meadows Park to the north. At the corner of the street that goes east in a slight southward wave, stop. It is well south of the two large circles. Look to the northeast, there is a house there with a drive way and a two door garage. The Sabre GT is parked in front of the right one.

### *Sentinel*

Reward: \$8,250

Location: Alderney, Normandy. Go west from the Booth tunnel, take the second one south, and then turn left again. There is a Tudor Port sign on your right. The car is behind the sign and before the gates ahead. It is parked facing north, on the west side of the road leading into the gated area.

### *Sultan*

Reward: \$11,550

Location: Alderney, Bechem.

### *Super GT*

Reward: \$36,300

Location: Algonquin, The Exchange. Go from the southern Perseus store to the north (through the street that is a bit wavy). On the third street, after the 69 Exchange, turn west, and you should see it parked on the northern side of the road facing west. Right next to it is a bank.

### *Turismo*

Reward: \$36,300

Location: Alderney, Westdyke. Go from the northern car wash. Take the road south of it to the west, then south. Turn east, and when the next road goes off to the south, stop. Just to the north of here in that block is a house that has a marking of an alley in a T shape on the map. It is the western most one. In the northeast corner of that T is the Turismo.

### *Voodoo*

Reward: \$6,600

Location: Dukes, East Island City. As you come off the East Borough Bridge, follow this road until it ends and you run right into it. It is parked on the east side of a street; to the east is a large tower form LC24; to the southeast a hotdog stand; and a bit to the southwest is a police station. Be careful of those cops.

### *Washington*

Reward: \$7,260

Location: Dukes, Steinway. Look at Dukes. There is the large elongated circular park in the northwest on the western shore. Go to its west side. The Washington is parked on the west side of the road here, facing south.

- Faster motorcycles

**Note:** A PCJ600 or NRG900 is recommended for this trick. To drive faster, accelerate, and just as your bike is about to shift into third gear, tap the Left Analog-stick repeatedly about every second. Do not tap it too fast or you will lose rear tire grip. If done correctly, the engine will gradually get near to the end of its last gear. When it gets to the end of its last gear, the revs will jump to indicate that you are travelling at the bike's top speed.

- Moving up stairs faster

Instead of running up a set stairs, try jumping up them to move faster.

- Self-healing fire truck

If your fire truck catches on fire, use its water cannon to put out the flames and prevent it from exploding.

- Avoiding calls

To avoid being interrupted during a mission by a friend or wanting to explore the city without getting a call for another mission, bring up the cell phone menu. Enter the "Options" menu, and turn "Sleep Mode" on.

- Change police siren

Get in a police car, and turn on the sirens. Hold [Horn] to cycle through alternate siren sounds until released.

- Shooting people with water cannon

Steal a fire truck, then press [Fire] while driving around to shoot the super water cannon at people around you. You will get many funny reactions from the people that you shoot with it.

- Driving on roller coaster

Steal a Blista Compact or another small sports car, and drive to the abandoned roller coaster in Broker on Firefly Island. Knock down the section of fence next to the road near the ticket booths. Drive onto the section of tracks that is almost level with the ground. Drive your car around the roller coaster. You may get stuck on the turns, but you can carefully squeeze by them with careful driving.

- Getting tossed by friend

Invite a friend to hang out with you. Gently nudge him with your car, enough to knock him over but not enough to hurt him. After a few times, he will open the car door and throw you out.

- Friend in hospital

If a friend gets run over by an NPC on the way to see you, you will only be able to get his voice mail. A few in-game days later he will call, asking to be picked up from the hospital.

- Bumping into an officer

When you see a cop on the sidewalk, you can push past him like any other pedestrian while walking. However, if you continue to push and pester a cop, even if you do not have a weapon or throw a punch, he

will attempt to arrest you.

- Burnout

While in a car, hold [Accelerate] + [Brake] to do a burnout. If you keep doing this, the smoke will change color and eventually your tires will burst.

- Easy 360s

Gain some speed in a car, then hold [Handbrake] until you have completed a full 180. Just before you complete the 180, release [Handbrake] and hold [Brake], which will spin you the next 180 degrees. However, some vehicles cannot do this. Also, with some vehicles, holding [Brake] will spin you back the way you came while using the handbrake, resulting in back-to-back 180s.

- Easy strikes in bowling

Select the first lane (all the way to the left). Take two full steps to the left. Hold Right Analog-stick Down for about a half second, then press Right Analog-stick Up. Do not add any aftertouch to the throw.

- View Statue Of Happiness' heart

Once you gain access to Happiness Island, find the Helicopter Tours, which is directly east of Happiness Island, and steal a helicopter. Fly to Happiness Island and over the Statue Of Happiness, then jump out of the helicopter at the statue's feet. You should land on the top-most tier of the statue, which is basically a square platform with a door in the center of each side. Run around the platform until you see a door with a plaque on either side of it that reads, "No Hidden Content Here". It may seem like you cannot go through the door, but you can -- it doesn't open, you simply walk through the door. You will find an empty room with a tall ladder inside. Climb it, and when you reach the top, look up to see a huge beating heart, held in place by chains.

- Online dating

You can date people from the in-game internet. When looking at their profile, click "Date". You will then have to wait a few in-game days for a negative or positive reply via email. If your date accepts, reply to their email, and meet them.

- Lap dance duet at strip club

Go to a strip club, and reserve a lap dance. After the performance is done, she will ask if you want another, accept twice, and she will bring another girl into the room for a duet.

- Brucie's tattoos

The tattoo on Brucie's breast means "I" in Chinese. The tattoo on his right forearm means "straightforward person". The tattoo on his left forearm means "unqualified". The tattoo on his waist actually means "shemale".

- Lola the lollypop girl

Lola is a prostitute in the game. She can be found near the docks. Search the Police Database for Lola del Rio, and it will tell you her location.

- Finding Eddie Low the serial killer

Throughout the game the radio, television, and internet talk about a serial killer. You can meet him in an alley close to the Auto Eroticar dealership in Alderney. When you get close to the alley, a circle called "friend" will appear. He will ask you for a ride. You can then hear all the crazy things he has to say.

- Visiting your kidnapped victim again

While driving through southern Alderney soon after completing Garry's kidnapping missions, you may notice a blip on the radar. Drive to the small house, and you will see the mob daughter who screams and calls for help. Her father and several gangsters will appear and attack you.

- Getting inside the Alderney Correctional Facility

Steal a helicopter, and fly over the top of the prison. Land on the basketball courts to avoid getting a wanted level. After entering the prison, you can see prisoners talking with each other, eating on the benches, a crazy prisoner, and correctional officers on patrol.

- Sex toys

Pink vibrators can be found all throughout Liberty City. A good place to look is in the warehouse where the final mission takes place. Search in the little bundles of trash on the ground on the inside of the warehouse. They can be found elsewhere, but this is a good place to look as it is also the starting location of Party mode.

There is a purple dildo sticking out of a pile of trash under the stairs by Salvatore's mansion.

- Hospital sex poster

There is a funny hospital poster in the north Alderney hospital on Long John avenue. You will go inside the hospital for a mission. On the left hand side when you walk in, read the sex poster. It may help if you use your camera or a sniper rifle to zoom in.

- Brucie on "Money Maker" magazine

Zoom in on the magazine in Playboy X's penthouse coffee table. Brucie is on the cover of "Money Maker" magazine with the subtitle "How To Spend It Wisely".

- Mid-air cars

While in a helicopter, preferably the Annihilator, enable a code to spawn a vehicle. The vehicle will either float in the air motionless, fall at high speeds, or hit your rotor and spin off.

- Stopping police siren

Shoot out a police car's lights with a gun to make the siren malfunction.

- No helmet on motorcycle

Use the following trick to ride a motorcycle without Niko wearing a helmet. Tap Y at any point during the animation where Niko puts the helmet on, but before the helmet actually appears. Doing this cancels the animation, and Niko will not wear his helmet. If you wait too long and press that button after the helmet has appeared in Niko's hand, it will still cancel the animation, but the helmet will immediately appear on Niko's head.

- Honking traffic jam

Drive up to an intersection, and start honking your horn. Other vehicles will join in and honk as well. If you honk your horn near a police car, they will run their siren to honk with you.

While stopped in a vehicle in a large traffic jam, tap out the rhythm of the musical phrase "Shave and a haircut" with your horn. Another car in the traffic jam or pedestrian will answer it with the standard two beep "two bits" response.

- License plate messages

Certain vehicles have funny notes on their license plates cover or border. For instance, the "Ruiner" 1980's Camaro clone has the saying "Ruining Imports Since '67".

- British pedestrian

On Lockowski Ave., there is a British man in the auto car dealership. If you bump into him he will shout things like "You wanker" and so forth.

- Karate pedestrian

At the bottom area of Broker is a beach. Continue to the edge nearest to Algonquin to see a pedestrian practicing karate.

- Ratman

Walk in the darkest parts of the subway, and you might find someone called "Ratman". When you get close to him, he will say said he is Ratman but will then run very fast down the subway. You will not be able to catch up with him.

- Invisible rider

Get killed or somehow otherwise get to Schottler Medical Center. Enable the "Spawn Sanchez" code. Look at the inside of the hospital from the bottom of the stairs. Keep pressing A on the "Cheat" option of your cell phone until you see a Sanchez appear inside the hospital. Go up to it, and get on the bike. Either all the walls will disappear, all the walls will have inverse colors, or everything will turn very bright white. No matter what, Niko will be invisible and so will your gun if you choose to fire it. The muzzle flash appears but the gun itself does not. You can get on and off the bike. **Note:** If you try to go outside the hospital, you will become visible again.

- Fall through ground

Drive a large vehicle, such as an SUV, to Francis International Airport. Drive sideways under a moving plane so that the wheels are pushing into you. Sometimes you and the car will drop below the world. After a few seconds, you will respawn back on land with the vehicle gone.

Get to the part where you go into the subway about halfway through the mission "Your Shirt, Your Boots, Your Motorcycle". Stay to the left. When the subway car comes towards you, keep left, and try to get in-between the wall and the subway car. Doing this will drop you into "blue hell" for a few seconds before popping you back up.

Go to "Fishmarket South" (where you do one mission for Bernie). Find the Anchor statue near the sea. Go towards the water and over the little dock into the water. Swim to the right (south) until you see a wooden "pier" against the wall. It should have square gaps that you can hop through. Jump through the one to the far right (the first one you swim past), and move towards the wall. You will fall down into "blue hell".

- Swim under city

Go to the north part of the map, just northwest of Butterfly Street in Bohan. Then, get down to the outskirts of the land, and walk towards the corner between the brick wall and the cliff. You can walk through the invisible wall. Lookup towards the city to see the city from below. You can also continue onwards and swim under the city.

- Skull box inside Packie's head

Position Packie between the camera and Niko. Move until the camera is inside Packie, and look at the center of his head to find a box with skulls.

- Random character missions

There are a total of 22 total random character missions. All except Jeff, Cherise, Ivan, and Clarence count towards 100% completion. There are six on the first island (three for Brian, and one each for Mel, Ilyena, and Badman), twelve on the second island (three for Jeff, two each for Marnie, Sara, and Pathos, and one each for Hossan, Clarence, and Cherise), and four on the third island (two for Eddie Low, and one each for Gracie and Ivan). **Note:** The missions for Ivan, Clarence, and Cherise are only available if you allow them to live during the storyline missions. The random characters only appear after the following missions:

- Most wanted mission locations, hints, and tips

*Bohan Dukes and Broker*

**Maxwell Caughlin**

Crime: Gang Related Violence

Location: He is just one block north of the safehouse in Bohan. As you near him, he will pull out and drive away. Shoot him and his friend. Aim for the driver and the tires. If you cannot aim precisely, just keep shooting the car until they bail out.

**Scott Guzowski**

Crime: Gang Related Violence

Location: He and his gang are hiding out in Steinway, in the large park to the west. Go to the road east of them, then hop over the wall. There is a small wall down there that will give you cover. You can take all four of them out from there.

**Antoinio Rivette**

Crime: Racketeering

Location: He and his friends hide in the train station at South Slopes. Go there, and go up the stairs. He has three helpers with him. Be careful as it is very crowded.

**Rodrigo Stavnes**

Crime: Racketeering

Location: He and three friends are on foot. Look for the blip location, and go to the road west of it. The GPS will lead you to the one east of it. As you get close, they will run to the street here. Run them over or shoot them. They will go north and split up at the end of the street. Kill them before that happens to save time.

**Fernando Tisdell**

Crime: Human Trafficking

Location: He hides out in Hove Beach. He will come out in a car with three of his friends to the south of the blip. They will then make a run for it. Keep up with them. Try to kill the driver as that will get them to stop and get out, or just spray the car with bullets.

**Tyler Pickrel**

Crime: Human Trafficking

Location: He is in Meadows Park, to the northeast of the big circle. He will make a run for it when you are close, but on foot. Run him over or gun him down.

**Preston Pecinovsky**

Crime: Credit Card Fraud

Location: He hides out in the northeast of Bohan. Approach him from the east. You can then gun them all down or blow up their two cars with a rocket launcher. The rockets are expensive; only use them if they try to get away. You can usually just snipe them, even out of the car as they move. If they take off, steal a car, and follow and kill all of them.

**Alonso Goralski**

Crime: Burglary

Location: There are two people at the airport. When you approach, one is in a car. The other person stays near the gatehouse where the blip was. Hunt down the one in the car first, then return for the other person. Do not get too close to that second person because he has a shotgun.

### **Bert Reker**

Crime: Drug Trafficking

Location: They hide out in a junkyard in Bobao. Approach it from the southeast. As you go down the road, stop and pull out a sniper rifle. From up here, you can kill a fair number of them. With their ranks thinned, go down, and take out the rest.

### **Freddy Paparo**

Crime: Grand Theft Auto

Location: Freddy is north in a parking lot in Steinway close to the waterfront and to the west of the bridge going north. As you get closer, you will see Freddy and three friends pull out in a car. Shoot the car until it explodes or they bail out, then kill them all.

## *Algonquin*

### **Shon Kikuchi**

Crime: Gang Related Violence

Location: He is in North Holland, in the block across the northwest corner of Middle Park. As soon as you get close, he will make a run for it in a Banshee. At first, he is rather slow. Try to get close, and shoot him out of the driver's seat. If that does not work, he will speed up. Keep shooting his car until it breaks down so he goes on foot or it explodes.

### **Jimmy Kand**

Crime: Gang Related Violence

Location: He is in the northern area of the X building in Northwood, the same one Dwayne is at. Enter it through the south, and use the stairs, just to the right and then around the corner to your left. On the first floor, you will notice that the red target icon changes from an up arrow to a circle. That means you are on the correct floor. Ignore everyone else, and shoot Jimmy in his room as he lays there passed out.

### **Simon Nashly**

Crime: Racketeering

Location: He and his gang hide out in Fishmarket South in the building with the sign Pier 45 on it that looks like a "#" sign on the map. You will find them all over the different levels of this building, and they move around. Watch the radar closely to get their positions to find them all. Do not worry if cops show up as you can also kill them. Your wanted level goes away as soon as you kill the last of the gang.

### **Tommy Francovic**

Crime: Racketeering

Location: As you approach him in Castle Garden City, he will take off on a bike driving north from his starting position. Ram him with your car, then drive over him or shoot him.

**Barry Lamora**

Crime: Human Trafficking

Location: He is standing with two friends on the northeast corner of the apartment building on the south area on Colony Island. Kill his friends while he runs away, then chase him down. He moves south towards the old hospital.

**Lino Friddell**

Crime: Hit and Run

Location: He and two of his friends are close to Middle Park. As you approach the blip, they will run to the east in the alley, then go north to an SUV parked there. If they make it, they drive off, and you have to chase them down. Two easy ways to kill them are to drive into that alley and run them over or drive to the alley in the north, and as they go for the SUV, and kill them. This also helps you block the SUV in case they do make it there.

**Juan Haimo**

Crime: Burglary

Location: He is found near the north end of Star Junction. When you get close, three bikes will take off from there to the east. Stand where they come out, and shoot them before they can get anywhere. Kill any that you can. If one makes off, chase him. Bump the bike to make him fall off, then drive over him or shoot him.

**Darren Covey**

Crime: Arms Dealing

Location: He hides with five of his friends in a parking garage in Purgatory. You can get up there over a ramp to the south. When you get the red targets, stop, and get out of the car. Take out your sniper rifle, and shoot the people from this distance. Stand east of the barrier. By doing this, they will most likely not have a chance to hit you. You can also use the RPG on one of the cars to kill them, but the sniper rifle is cheaper and almost as effective.

**Leo Brodell**

Crime: Drug Trafficking

Location: He is in a building just south of the three X buildings in East Holland. The entrance is on the north side, to the very east of the building. When you stand in front of it, the entrance is to the left and to the right is a blue banner on the buildings reading "Real Loose Clothing". The first one is just on the first landing. The second one is on the other side where the steps go up again. Exactly one level above that one is the third person. The next level is clear. Another person stands at the landing of the next level. Then, go up to the door leading to the roof. Shoot the door, and immediately to the right behind it is the next person. The last person hides on the roof, to the right around the corner and behind a small wall when you get out there.

**Christov Mahonvic**

Crime: Grand Theft Auto

Location: He is in a building in Fishmarket South, just north of the Broker Bridge near the waterfront, with a lot of garbage trucks parked to the south. One of the story missions also brings you to this exact building. All of them are hidden in there. Snipe them from the south when you get

past the fence. Anything that is not reachable that way (for example, the person in the upper level just to the left when you enter) will need to be killed close up. The rest should be easy kills with the sniper rifle without you getting hit.

### *Alderney*

#### **Marty Boldenow**

Crime: Gang Related Violence

Location: He is hiding out in Acter, north of the gun shop. Approach it from the south. He has an entire crew there helping him out. Kill them all, but be careful as they are equipped with assault rifles.

#### **Noel Katsuda**

Crime: Gang Related Violence

Location: He and his gang are in southwest Tudor. Approach it from the south and west. Throw a grenade over the wall, then go in and kill the rest. His gang has SMGs', so use cover here.

#### **Rodney McEniry**

Crime: Racketeering

Location: He and his crew are in a back alley in Berchem. Approach it from the south, and go into the alley to take him and his three friends down.

#### **Glenn Lushbaugh**

Crime: Human Trafficking

Location: He is in Alderney City, just south of the highway across from the Auto Erotica. As you get close, he will pull out of an alley and drive off. Chase him, and shoot his car until it is destroyed.

#### **Phil Bacerra**

Crime: Hit and Run

Location: He is close to the Booth tunnel, just to the southwest of it near the marina. You will see two trucks there. Each has two men in them. You must kill all four to complete this task.

#### **Sergi Szerbin**

Crime: Burglary

Location: He is hiding next to the Pay And Spray in the north. Drive to the first street to the south of the one in front of the shop. You can use a rocket launcher to blow up the car in front, doing a lot of damage to them. However, this is very expensive with little pay off. Instead, use the sniper rifle, and kill what you can from here. They will not come at you. Get closer, and kill those still hiding. You can do this easily without a single shot hitting you.

#### **Danny Hatmaker**

Crime: Arms Dealing

Location: He hides out at the port area in Normandy. These people also stay in place, around the

large tanks close by. Watch the map to see targets that are above you, but most are on ground level. The last two hide between the containers to the southwest.

### **Mervin Eskuchen**

Crime: Drug Trafficking

Location: He sits with his friends in two Patriots to the west of the TW@ Internet Cafe. Approach them from the north using the street just east of the blip. When you get the red targets, get out of the car with an assault or carbine, and target the men in the cars. You should be able to kill at least one of them by doing this. They often also stop, and you can easily pick all four off the streets. If they get moving, get in your car again, and hunt them down. They drive very close around the blocks all the time. You can also try to wait at a corner and blow them up with a rocket launcher, but that is unnecessary expensive.

### **Frederick Harrison**

Crime: Grand Theft Auto

Location: He and his friends hide in Tudor, near the old bridge. One of the men is to the south under the bridge itself. The rest all hide up on the bridge. As you go up, check behind you. They like to shoot you in the back. Use your sniper rifle when you can see them from afar.

### **Keenan Burdett**

Crime: Armed Robbery

Location: He and a lot of his gang are hiding out in a multi-storey car park in Leftwood, slightly to the north from the Pay And Spray. Go to the southwest corner here, and enter through the door in the south wall. In here is a Sprunk soda machine. If you need some health while doing this, it will help. Go through the next door to the north. Follow the ramps just slightly to your right. Go up the levels. There are a few hiding behind pillars here, but the main force is on the roof. As you go up, use your sniper rifle to kill them. The last of them make a stand in the northeast corner. Remember the Sprunk machine at the entrance to refill your health if needed.

- Digital porn in Do You Have Protection

In the mission "Do You Have Protection", when you enter the building with three men, look at the television they were watching. It will show the porn movie the men were watching.

- Easy escape path in Holland Nights mission

As you are going up the stairs to chase Clarence, you will see a green health kit. Do not take it. Continue chasing Clarence, and follow the advice of McCleary about not using your weapon until you are on the second floor; otherwise, Clarence will just get into a vehicle and leave. If you wait until you are on the

second floor, he will climb to the roof. After you have chosen Clarence's fate, you will instantly get a three star wanted level regardless of what you selected. You must battle your way out. Since you are going down, you have a distinct disadvantage in cover and will take lots of damage. To give yourself an advantage, park a fast car on the street near the opening in the gate at the start of the mission. Do not pull up to the gate. Use the stairs to your right to give chase. Once you have gotten to the roof and chosen his fate, descend to the level with the first aid kit (green box). Since you left it there on your way up, you will know what level you are on and can power up. Go to the side of the building where your car is parked, and jump over the railing. You will not lose much health when you land. Sprint to your car, and get away from the cops. If done correctly, you should not take a single bullet from police. The health pack is a requirement to survive the fall.

- Easy "Chain Reaction" achievement

Jackknife a bus on the Algonquin Bridge so that it is blocking all lanes. Once a bunch of vehicles have piled up, get on top of the bus, and use the RPG and grenades to destroy the vehicles and get the achievement.

Create a traffic jam in an enclosed area, such as the Booth tunnel by blocking off both lanes with two vehicles. After the cars back up, steal some of them and squeeze them between the others so that there are three or four next to each other. Throw a grenade at the vehicles in front, then use a RPG to destroy the others.

Steal ten vehicles and park them next to each other, preferably in a smaller area, an inside corner, or the outside of a building so there is less of a chance the vehicles will push away when they explode. Then, use a weapon to make at least one vehicle explode. It should start a chain reaction and make the other vehicles explode.

Park ten vehicles at any gas station around the pumps. Get an RPG, and aim it at the gas pump. With two shots, all ten cars should explode.

- Easy "Finish Him" achievement

Go to the Helitours located at the bottom right-hand corner of the middle island. There are five employees wearing orange reflective vests. Start with the person that is furthest away from you. If you start fighting with the first person you see, a second one will come over and double-team you. Each person will last about two counters.

- Easy "Join The Midnight Club" achievement

Keep joining and quitting matches until you are the host. Then, set the lap number to one, and start a helicopter race with very few opponents.

- Easy "One Man Army" achievement

Go to the bridge that takes you to the second island and has train tracks under it. Walk along the train tracks towards the second island before you are allowed to cross the bridge. When you are about half way, you should have a six star wanted level. Then, just stand on the train tracks for five minutes to get the achievement. You do not have to worry about the police because they will be on the bridge above you so they cannot shoot, and the helicopters are above you so you have cover from them.

Go to the hospital at the north-west corner of Algonquin. You can also get there by dying in that general area. Get a motorbike. Set a Waypoint at the hospital or just remember the way you came. Drive to the nearby bridge that takes you to the third island. You must not have access to the third island for this trick to work. Slowly reverse backwards over the barricade on the bridge until you get a six star wanted level. Then, drive straight back to the hospital. To the right of the hospital as you are coming back is a little red fence that you can bust through and get onto the elevated train tracks. Wait there for approximately five

minutes to get the achievement. No cars can get to you on the train tracks and the helicopters cannot shoot accurately enough to hit you at motorcycle speed.

Attempt to enter one of the locked boroughs early in the game to get an immediate six star wanted level by taking a car on the subway (or elevated train) tracks. This can be done easily near the corner of Grand Boulevard and Leavenworth Ave. in North Bohan near the police station. From Leavenworth, take a left onto Grand, and go up the little hill. When you reach the crest of the hill, look to your left to find a very short wall above a subway tunnel. Drive a car over that short wall, then drive underground toward North Algonquin. When you have a six star wanted level, stop your car and remain there for five minutes to get the achievement.

After the middle island is unlocked, steal a helicopter from the helitour site in the southeast corner. Fly over any other area you have not yet unlocked to automatically get a six star wanted level. Fly off the map in any direction, and stay in the air. The police helicopters will only chase you so far. After five minutes, you will get the achievement.

- Easy "Rolled Over" achievement

Go to the airport runway in a fast car (Infernus, Super GT, police cruiser, etc.). There are small yellow ramps scattered in the grass by the runway. Locate one, drive back a good distance, then at full speed hit the ramp so that only half your car actually hits the ramp. You should get enough spins to get the achievement.

Go on the Algonquin Bridge that connects Dukes to Algonquin. Find the part where the lanes split at the bridge when going westbound. At the split is a small ramp. Hit that ramp at high speed to make your car roll over several times. Try to land in the lower area for more room to roll over.

- Easy "Walk Free" achievement

Get a four star wanted level, then start a mission to get the achievement.

Get on the airport runway with a car, then get out. This will instantly give you a four star wanted level. Then, run or drive to the end of the runway to get the achievement.

Start picking off cops one by one. Your wanted level will rise as more of them are killed. After you get a four star wanted level, get in a vehicle, and drive into the subway tunnel. Once you leave the flashing wanted circle and your wanted level disappears, you will get the achievement.

- Easy "Wheelie Rider" achievement

Get a motorbike, and go to Francis International Airport. Go to one end of the runway, start to accelerate, and do a wheelie by pressing Left Analog-stick Down for 500 feet to get the achievement. The runway works best because you have a very long distance where you can drive perfectly straight without worrying about vehicles pulling out in front of you.
